Profile

I'm deeply passionate about tech, which led me to pursue a career in it despite coming from a different educational background. I approach every project with excellence, creativity, and a strong commitment to structure—adapting to existing rules while bringing a unique touch to everything I do.

Skills

Languages:
PHP | JavaScript (ES6+) | HTML5 | CSS3 | SQL

Frameworks & Libraries:
React.js | Flutter | Bootstrap, Tailwind CSS | Express.js

Databases:
MySQL | SQLite

Cloud & APIs:
Flutterwave API | RESTful APIs

Tools & Platforms:
Git | Trello | PageSpeed Insights | DevDocs | Postman

Professional Experience

Aug 2024 – present
Remote

Fullstack Developer (Contract)
Hephzibah Interbiz ↗

- Integrated **Flutterwave's payment API and webhook system** to enable seamless and secure online checkout.
- Developed a **"Buy on WhatsApp" button**, streamlining the order process via direct chat. This feature led to a **70% increase in online sales**.
- Implemented a **Wishlist system**, allowing customers to save products for future purchases, boosting customer retention.
- Added a **"Share Product" feature** with dynamic URLs, enabling users to easily share specific products across platforms.
- Designed a **mobile-app-like navigation menu** for mobile users, ensuring smooth and intuitive browsing across pages.
- Applied **on-page SEO strategies**, resulting in a **90% boost in search engine visibility** and organic traffic.

Oct 2024 – present
Remote

Fullstack Developer (Contract)
Starlight-Sms ↗

- **Integrated Flutterwave API** to enable seamless user wallet funding and digital service payments, resulting in a **60% increase in digital sales**.
- **Engineered a virtual wallet system** that auto-generates upon user registration, enhancing financial operations within the platform.
- **Developed a live Dollar-to-Naira currency converter**, automating price adjustments and helping the business stay inflation-resilient.
- Built and deployed a referral system that rewarded users ₦500 per referral, contributing to a 40% increase in user acquisition.

Jan 2025 – present	**Frontend Developer (Intern)**
Hybrid	*Newtral Studios* ⊡

- Collaborated with the team to design and develop the agency's official website.
- Introduced a structured task management workflow using Trello, improving coordination and accelerating delivery timelines.
- Proactively suggested and implemented a system for **task breakdown and progress tracking**, leading to more precise execution and clearer project direction.

Projects

Mar 2025 – Apr 2025	**Scalable Watermark Tool** ⊡
	*Tech Stack: React.js	JavaScript	HTML5 Canvas	Tailwind CSS*

- Engineered a high-performance image processing engine with real-time watermark rendering and lossless export, optimized for both desktop and mobile environments.
- Designed a drag-and-drop interface with dynamic watermark customization tools (opacity, scaling, font styles, and logo positioning) for enhanced user control and professional output.
- Built a robust undo/redo history system with 100% accuracy and implemented a 9-point watermark positioning grid, enabling precision editing and non-destructive design workflows.

Education

Jul 2023 – Jan 2024	**Fullstack Web Development**
Ibadan, Nigeria	*Penyl Technology Bootcamp*

Jan 2025 – Mar 2029	**History and Diplomatic Studies**
Abuja, Nigeria	*University of Abuja*
